

My family and I please request that K-LOVE FM radio signal not be replaced by an LPFM signal. K-LOVE provides our family with family-friendly programming and uplifting music. If K-LOVE were displaced by an LPFM, we would truly miss the trusted programming from K-LOVE. Our community would also suffer because the opportunity to hear uplifting music and ideas would be gone. I believe that K-LOVE is essential to our community and to our nation. It is in the public's best interest to have the station, because it's a safe place for wholesome values and positive encouraging messages for everyone. Please take into account the comments from K-LOVE listeners before making the final decision and thank you for your time.
